  - GPA - 3.45
- Certificate Course in English Language
  - NIBM Colombo 07
- Passed GCE A/L in Physical science stream
  - Mahanama College Colombo 03

## PROFILE

I completed my higher education in April 2021 and started my career as a Full Stack Software Developer. My total work experience period was 2 and half year but I found my true ability and desire in this career path about a year ago. Asp .Net, Microsoft SQL, SSRS, C# are the most familiar technologies I have worked in my 1 and half years of career journey. But about a year ago I realized my own technical and designing skills(user empathy), I started to work as an UI / UX engineer. Since I am new to this field I always try to sharpen my skills for this position. And I always try to give my maximum creative potential to the company I work for. I have a strong belief in my abilities and my only goal is to further improve them and move to the top of this field. As an UI / UX Engineer, I accept any challenge that comes my way and face it successfully.

## PROFESSIONAL SKILLS

HTML/CSS/BOOTSTRAP/JS

ANGULAR/ NODE JS/ TYPESCRIPT

ADOBE PHOTOSHOP/ ADOBE XD/ ZEPLIN

ASP.NET WEB FORMS/ C#

MICROSOFT SQL/ SSRS

Also I have experience with React JS, React Native, C, Java, Little bit in Ionic Framework and GitHub, GitLab, Microsoft Azure, Bitbucket and Jira as cloud platforms.
